## Are my credits transferable?

Missouri Senate Bill 997 established the seamless transferability of core college credits between all public four and two-year institutions in the state. This core transfer curriculum is known as CORE42 and it became effective for the 2018-2019 academic year. [See the CORE42 list here.](#)

The completion of the CORE 42 at any public institution of higher education will transfer to every other public institution of higher education in the state and substitute for the receiving institution's general education requirement. Individual courses that comprise the CORE 42 are guaranteed to transfer one-to-one among all public colleges and universities.

If transferring credits to other states, credits may or may not satisfy individual program requirements as this is dependent upon the course, major area of study, and/or specific institution requirements. [See course transfer equivalencies here.](#)

Will my enrollment in Dual Credit in High School affect my college scholarship eligibility or financial

## Missouri Higher Education Core Transfer Curriculum (CORE 42)

Home » core42

Senate Bill 997 established the Higher Education Core Transfer Curriculum Act (Sections 178.785-789 RSMo), which directs the Coordinating Board for Higher Education to develop a standard core transfer curriculum and a common course numbering equivalency matrix for lower-division general education courses. The core transfer curriculum, known as CORE 42, is a framework for general education that all Missouri public two- and four-year institutions of higher education will adopt effective for the 2018-2019 academic year. The goal of the CORE 42 is to facilitate the seamless transfer of academic credits. The completion of the CORE 42 at any public institution of higher education will transfer to every other public institution of higher education in the state and substitute for the receiving institution's general education requirement. Individual courses that comprise the CORE 42 are guaranteed to transfer one-to-one among all public (and participating independent) colleges and universities in Missouri.

The framework for Missouri's CORE 42 is designed for students to obtain the basic competencies of Valuing, Managing Information, Communicating, and Higher-Order Thinking through the completion of at least 42-semester hours distributed across the broad Knowledge Areas of Communications, Humanities & Fine Arts, Natural & Mathematical Sciences, and Social & Behavioral Sciences. Students obtain the competencies through completion of the CORE 42 in its entirety.

Welcome to the following independent institutions who have signed on to the CORE 42:  
2019-2020 academic year: Central Methodist University, Missouri Baptist University, Avila University, and St. Luke's
